Each continuation \$1 00

Advertisement continued in the Weekly Bulletin, if they are inserted in the Weekly Journal, will be charged for at the rate of 10 cents for each insertion, if not so inserted in Weekly Journal 20 cents.

Written notice must be given to take out and stop advertisements of nearly all descriptions before the year expires, otherwise will be charged one-half the above rates.

Notice of any advertisement will be discontinued without previous notice to us, nor will any charge be made for less than one year at the yearly rates.

FRIDAY, OCT. 31, 1856.

## RIVER AND STEAMBOAT MATTERS

The river is falling so fast that the Cincinnati mailboats Superior and Moses McLellan have been compelled to lie up again. The Cremona will be down this morning in place of the Superior. The river has fallen altogether between four and five inches. The weather yesterday was cloudy and cold.

The steamers Diamond and Rock City are advertised for Owensboro' to day, the Seventy-Six, Red Wing for St. Louis, Commerce and Sligo for Cairo, and Tennessee for Paducah.

The St. Louis Intelligencer, of Wednesday evening, says:

During the twenty-four hours ending at noon to-day, the river at this point has risen 15 inches at least, and is still rising faster now than at any time since the swell commenced. There is 6 feet water in the Mississippi to Keokuk, and a good boating stage all the way to Peoria in the Illinois, and, more than that, they are all reported rising.

*Accident to the Pennsylvania*—It was rumored on the levee yesterday that the St. Louis and New Orleans fast packet Pennsylvania had been snagged and sunk on her downward trip from this port, and the report was generally credited. Such, however, was not the case; the boat is not sunk, but it was reported in New Orleans that she had struck a snag on her way down and broke seventy or eighty of her hull timbers. The Grace Darling met the Pennsylvania under way bound down.

The following, in relation to the Cumberland river, we find in the Nashville Patriot of Wednesday:

A slight rise has taken place in the Cumberland land since the late rains. A further improvement may be looked for, and, if such is the case, the small boats will commence running in a few days. So we were informed yesterday.

T. Sligo arrived from Cairo yesterday. To Mr. John H. Harris, her attentive clerk, we are indebted for an interesting memorandum.

*Mechanics' INSTITUTE—BENEFIT OF THE POOR.*—The number of tickets sold last night was very satisfactory, and will afford relief to many who are afflicted. Much credit is due to several gentlemen of the directory for their personal exertions in this enterprise.

The exhibition is now closed, after a very successful and pleasant season. The managers are entitled to much credit for the able manner in which they have conducted it so happily a termination. We shall recollect with pleasure many scenes that have occurred during the progress of the Fair, and especially the delightful entertainment given by the gentlemen of the directory on Wednesday evening. The attractions of the Institute for the remainder of the year will consist of a well-selected library, and a fine collection of periodical literature, to which all members have access.

*ANOTHER FOUNDLING.*—On Wednesday morning, Mr. Hawes, who resides in the upper part of the city, found at his door a basket and in it a babe. Mr. H. handed it over to the mayor, who had it sent to the almshouse and instructed the superintendent of that establishment to engage a nurse for it.

*SUICIDE.*—An inquest was held yesterday evening about six miles from the city, on the Lexington road, upon the body of Jacob Elwinger, who, having been unwell for several days, and doubtless laboring under a fever of the mind, hung himself by the neck with a leather line in a house near his residence. The deceased was a German about thirty-six years of age, and leaves a wife and four children. Verdict in accordance with the facts given.

W. LEE WHITE, Coroner.

THE RECENT DUELING MOVEMENT IN VIRGINIA.—The grand jury, at Richmond, Tuesday presented Robert G. Scott, John M. Botts, R. A. Pryor of the Richmond Enquirer, B. B. Botts, A. D. Banks of the Petersburg Democrat, and others for a violation of the dueling law.

**FINE DENTISTRY.**—In our notices of the articles exhibited at the Fair of the Mechanics' Institute, we omitted to mention a case of fine Dentistry and Dental Instruments exhibited by Dr. E. Griffith, Walnut street, between Fourth and Fifth streets. Among other specimens of dentistry, were some samples of continuous and single gum work which are unsurpassed by any manufacturer of the kind. The continuous gum work was put up by Dr. E. Griffith, and the single gum work by Dr. S. Griffith, of this city. They are exclusively of Louisville manufacture. A very superior set of Dental Instruments were also exhibited by Dr. E. Griffith.

[From this morning Journal.]

BALTIMORE, Oct. 30.

Two slaves of Lewis B. Norwood of Greenville, North Carolina, murdered their master by pouring a large pot of boiling water down his throat.

NEW YORK, Oct. 30.

It is important that those who send the election returns should send the whole number of votes cast for the electors of each Presidential candidate. Majorities are not sufficient. In cases where it is impossible to send promptly complete returns by States or counties, send as nearly full returns as possible, and a careful estimate of the balance.

The editors throughout the country will greatly facilitate the collection of the returns of the important election next week, by publishing the above notice every day till Tuesday.

CONNEX, Oct. 30.

The propeller Sandusky was blown ashore about 4 o'clock this morning. She was bound to Buffalo with a cargo of 3,000 bbls. of flour, which is all under water.

NEW YORK, Oct. 30.

The sloop-of-war Portsmouth arrived at Baltimore, August 7, and was to proceed on the 13th to Hong-Hong to relieve the Maceon. A letter in the Times, from Utkamoa, states that the steamer San Jacinto has been repaired and would start again for Japan in August.

ODENSBURG, Oct. 30.

A fire broke out here about 6 o'clock this morning in the Franklin House, which was totally destroyed. Mr. Cruskshank, the proprietor, estimates his loss at \$4,000. Many of the inmates lost all they possessed. It was reported that some persons perished in the flames, but the report is doubtful.

NEW YORK, Oct. 30.

Gen. Hiram Walbridge has withdrawn from the candidacy for Congress in the third district and declared in favor of Daniel E. Sickles. The distillery of Johnson & Luzeanne, Fourteenth street, was burnt this morning. Loss \$25,000.

CINCINNATI, Oct. 30, P. M.

The river is falling slowly with 29 inches water in the channel. Weather cold.

[For the Louisville Journal.]

We regret to see on the part of some persons a desire that W. H. and E. Stokes, judges at the ensuing Presidential election in the Fifth and Sixth wards in conjunction with us, should resign their positions on account of their having made bets on the election. We have sat with these gentlemen as judges of election, and can state that no more unexceptionable persons could be procured to perform that duty. We hope they will not resign, but consent to serve.

JOSEPH CLEMENT, Judge Sixth ward.  
SAM'L M'ATLACK, Judge Fifth ward.

LOUISVILLE, October 31.

Tobacco—sales at the warehouses of 15 bbls at \$28, 12 1/2, 20, 30, 8 40, 8 95, 9 25, 11, 11 30, 11 55, 12, 12 50, 12 55. Manufactured tobacco firm and sales light for want of shipping facilities—sales of 100 bbls Kentucky at 22 1/2 23. Sugar market firm and in good demand—sales of 10 bbls choice at \$1 10, 25 bbls C crushed at 13 1/2. Coffee in good demand—sales of 100 bbls at 11 1/2, 25 bbls prime at 11 1/2, 80 bbls common at 10 1/2. Molasses in good demand—sales of plantation of 100 bbls Rio at 11 1/2, 50 bbls prime at 11 1/2, 80 bbls common at 10 1/2. Chese—we quote W. R. Atte, small lot pressed tail at 12. Chese—what we quote W. R. Atte, flour market continues dull for want of shipping facilities—sales by the dray-load at \$5 75 from city mills, 30 bbls country brands at \$5 50, 75 bbls inferior country brands at \$5 40. Wheat has a tendency to decline—the city mills offer \$1 50 for red and \$1 20 for white. Provision market dull and prices unchanged—we notice heavy shipments but no sales. Salt is in limited demand, with sales of 200 bush at 55 and retail at 60. Potatoes—small sales Michigan at \$3 25. Leather in good demand—sales of 200 sides in the rough at 28.

NEW YORK, October 30, P. M.

Stocks are dull—Chicago and New York 93 1/2, Cumberland 17 1/2, Illinois Central 11 1/2, Michigan Southern 84 1/2, N. Y. Central 82 1/2, Galena and Chicago 108 1/2, Michigan Central 92, Cleveland and Toledo 67 1/2, and Pittsburg 55 1/2, Erie 87 1/2, Reading 75 1/2, Canton 21 1/2, Pennsylvania Coal Company 93 1/2, Illinois Central bonds 92 1/2, Cleveland, Columbus, and Cincinnati 101.

Cotton market steady—sales of 500 bales. Flour market is quiet—sales of 16,000 bales. Wheat is steady—sales of 100,000 bush. Corn is steady—sales of 54,000 bush. Pork market is steady—sales of 1,000 bush Western meat. Beef is firm—sales of 800 bales. Lard steady. Bacon is quiet. Whisky market is tending downwards. Linseed oil is firm. Lard is quiet. Scotch pig iron is steady—sales of 100 tons. Coffee is dull—sales of 200 bbls Rio. Sugar is buoyant—sales of 3,000 bbls. Rhubarb at 9 1/2. Molasses is firm. Freight are better.

NEW ORLEANS, October 30.

Cotton market easier but quotations are unchanged, with sales to-day of 5,500 bales. Mixed corn at 70. Molasses—a few bbls of new, the first off red, sold at 6 1/2. Red wheat at \$1 65. Exchange on New York at eight 1/2 premium.

MARRIED,

On the 28th inst., by the Rev. Wm. Holman, Mr. BENJAMIN SPARKS to Miss CECILIA C. NORMAN, both of this city.

On the 28th instant, at the residence of the bride, by Elder W. W. Forre, Mr. JEFFERSON CRUTCHER, of Woodford co., to Miss ALICE HERNDON, of Henry co.

DIED,

On Thursday, Oct. 30, ROBERT H., infant son of James A. and Mary C. Miller, aged 3 months.

W. LEE WHITE, Coroner.

[From the San Francisco Bulletin, Oct. 6th.]

**SUMMARY OF NEWS FOR THE LAST FORTNIGHT.—STATE.**—The political campaign was fairly opened for the season by a grand barbecue held on the 20th ult. at San Jose. A large number of cattle and animals roasted whole were devoured, and the Americans, Republicans, and Democrats each had their speakers there to explain their respective principles. Besides posting the San Jose people pretty thoroughly upon the political subjects no great result seems to have flown from it.

Considerable speculation in California War Bonds has taken place since the sailing of the previous steamer.

From every part of the mining districts the most cheering accounts are daily received. This season seems to have been particularly favorable for those who are engaged in mining operations of all kinds, and a very large amount of gold has been extracted during the last fortnight.

From Oregon, we learn that great excitement exists on account of the reported richness of the Fort Colville mines, and a general stampede is being made towards them.

Extensive improvements are going on in the cities and towns of the interior, particularly at Sacramento, Marysville, and Placerville. In Sacramento, a recent decision of the Supreme Court has caused much uneasiness, as it disturbs the titles to a large portion of the property in the city.

A large number of overland immigrants have lately arrived at Placerville, many of whom will settle in that vicinity.

The State Agricultural Fair will be held next week at San Jose, and as the reports from all the farming districts are favorable there will be a display of vegetable and other productions that will be creditable to the State.

In the North the weather for the past two weeks has been unusually warm, and throughout the State great drought prevails.

A fire which occurred at Prairie City on the 25th ult., caused considerable damage. Another smaller fire occurred on the Stanislaus River, opposite Knight's Ferry, where two men were destroyed by the flames.

Camp meetings have been held during the past month, at Petaluma, and also at the Monte, Los Angeles. A number of additions were made to the faithful.

The State Agricultural Fair will be held next week at San Jose, and as the reports from all the farming districts are favorable there will be a display of vegetable and other productions that will be creditable to the State.

It is important that those who send the election returns should send the whole number of votes cast for the electors of each Presidential candidate. Majorities are not sufficient. In cases where it is impossible to send promptly complete returns by States or counties, send as nearly full returns as possible, and a careful estimate of the balance.

The editors throughout the country will greatly facilitate the collection of the returns of the important election next week, by publishing the above notice every day till Tuesday.

CAMP MEETINGS.—*In Advance*—Daily Journal \$10, Century Daily \$5, Tri-Weekly \$6, Weekly \$3; Evening Bulletin \$3, if mailed \$4; Weekly Bulletin \$3.

CLUB PRICES.—*In Advance*—5 Country Dailies or Tri-Weekly for \$2; Weekly—1 copy 2 years \$6; 2 copies 1 year \$12; 3 copies \$18; 15 copies or more \$1 50 each. Weekly Bulletin \$1, if mailed \$1.50.

PAPER BY MAIL.—*In Advance*—Daily Journal \$10, Century Daily \$5, Tri-Weekly \$6, Weekly \$3; Evening Bulletin \$3, if mailed \$4; Weekly Bulletin \$3.

POSTAGE.—*In Advance*—Daily Journal \$10, Century Daily \$5, Tri-Weekly \$6, Weekly \$3; Evening Bulletin \$3

# EVENING BULLETIN.

FRIDAY EVENING, OCT. 31, 1856.

**THE FASHIONS.**—We publish to-day a report of the New York, Paris, and London fashions for November from our regular New York correspondent, who is *on the spot* on this subject. The letter will claim the attention of our lady readers.

Among the passengers on the steamship *Atlantic*, which arrived at New York on Tuesday night, from Liverpool, were Mr. T. C. Cleman and family of this city.

Among the births announced in late California papers is the following: "At San Francisco, Sept. 19, Mrs. Julia Dean Hayne, of a son."

[From our own Correspondent]

## FASHIONABLE INTELLIGENCE.

**NEW YORK FASHIONS FOR NOVEMBER.**—The weather has been quite changeable and unusually cool for the past month, so that furs have been in great demand, and have already appeared in the streets. Indeed furs are the rage this season, and therefore the state of the atmosphere is of little consequence. Mr. Godfrey Gunter, of Maiden Lane, the head of the oldest firm in the United States, informed me the other day that his business was double this year that of any preceding year since his house was established, which was in 1820. A great deal of extravagance is shown in the selection of the rarest and most costly furs. "Russian Crown Sable" is the ambition of all our fashionable ladies, a set of which is worth \$2,000. A great many orders have been received for a *Fichouette*, or Russian Sable cape, at \$1,200 dollars each. A small tippet was exhibited, a little larger than a victorine, worth \$500. These furs are only obtained with great difficulty and expense, and in this manner: The intelligent reader knows that all Russian cities are surrounded by walls, and entered by gates, which are constantly guarded by sentinels, who examine the passports of those desiring to enter. In the city they have no prisons, or jails, for persons who have committed offenses, but, instead of this, they are carried over the frontier into the mountains of Siberia, and told that, when they have obtained so many sable skins, a pardon will be granted them. Thus they spend their time in hunting sables, and, when they have procured so many, they present themselves at the gate of the city, and the number is credited to their account, until they have obtained sufficient to procure their discharge. This is done by the Emperor for the purpose of securing to the royal family the exclusive use of this particular kind of fur. But there are other persons who are banished for political offenses, and, never expecting to return to their homes, are not at all scrupulous in exchanging their skins to the Jew traders for whatever articles of comfort or convenience they may be able to obtain. These Jew peddlars visit them as they do our North American Indians, and exchange articles of clothing or tobacco for the skins of the Siberian squirrel or other furs, and smuggling off as many sables as they can get, they carry them to the Leipzig fair, where a great trade of furs, which correspond to our great book sales in New York, takes place. There they are eagerly bought up for the English and French markets at extravagant prices, a few finding their way here, though the most that are sold under that name are Hudson Bay sables, which rank next to Russian sable. A number of consignments were made to the United States last year because of the unsettled state of affairs in Europe, this having the reputation abroad of a very safe market.

**FURS IN GENERAL—THEIR QUALITY AND PRICE.**—Hudson Bay Sable ranks next to Russian Sable in quality and price, a very fine set of these being worth \$700 to \$1000. The most popular of all furs are the Minks, of which five times as many as any other are sold. A good set of these are very handsome, and worth \$150. Canadian Sable is also very highly valued, but not so much worn as Stone Martin, which is in some respects superior to mink. That is, the finest mink is superior to the newest stone martin, but the latter is less variable in its quality. Ermine is a very elegant looking fur, but has lost rank in the world of fashion. It is still worn for opera and concert cloaks, but is rarely seen on the promenade. A very fine set at Mr. Balpin's, on Broadway, can be obtained for \$180. The white of these furs is exclusively pure and silvery, while the black tufts are shaded off into the most delicate straw colors. The Siberian Squirrel is something like Ermine, but not so fine or delicate. It is shaded with drab, but has the black spots which distinguish the ermine. It has greatly increased in value since September, and the probability is that it will be worth double, next year, the price of any former years. This is also true in a much greater degree of American mink. A few years ago a fashionable lady would not wear an American fur, and skins could be bought for fifty cents that are now worth \$5. Thus the increase in the sale of fancy furs has doubled the value ten times. German Fitch are considered the best of the common furs, and a good set will bring \$100. After these come Musk Squash, or Musk Rat, Oppossum, and Mountain Martin, and the common Rabbit. A set of these can be obtained for any price from \$20 to \$50. A set comprises a large cape, rather larger and more graceful shape than last year, being pointed at the back, with long deep tabs in front which fall gracefully over the arms and form a half sleeve, a victorine, cuffs, and muffs. The cuffs are long and pointed at the top, and the muffs still retain the *petite* and delicate proportions of last season. There is a "tipped" which is not included in the set unless it takes the place of the cape, it being larger than a victorine, and smaller than the cardinals, and worn with a shawl at a ball or party.

## OPENING OF WINTER BONNETS.

An opening of winter bonnets took place a few days ago, at which were exhibited some very *recherche* styles, both of home and foreign manufacture. At the *salon* of Madame Harris & Son, who have just returned from Paris, were some elegant *chapeaux* from the well-known establishment of Madame Alexandre, Paris. They are slightly larger, with much less floridness of decoration than has been observable for the past year. The materials are various kinds of velvet—Moss velvet, a charming variety that looks like white velvet delicately crystallized; "Imperial" velvet, which is a sort of "rep" style; and the fine dotted velvet. These are in chaste and exquisite shades of drab, green, brown, and mallow, which last is an exceedingly fashionable and stylish color this season. White are also much worn, but more for brides and opera hats than any other purpose. A feature in the Parisian hats is that the ruche is no longer worn full all round the fall, but only at the sides; round the front is simply a fall of lace, which touches the forehead, and shades a plain band of velvet the color of the inside trimming. Feathers and rich velvet leaves are the most fashionable

trimmings, as they were earlier in the season; but the varieties in feathers are much greater, and some of them very pretty and fanciful. A new style of *chapeau* has been introduced into Paris by a few daring ladies; it is of black or brown beaver, and resembles a riding hat, but has a fall of black lace all round the brim, which is deep enough to entirely shade the face. A single ostrich plume is placed across the front, and the *tout ensemble* is very dashing and *piquant*.

## PANIC IN THE SILK TRADE—NEW CLOAKS.

There has been a good deal of excitement in the silk trade lately, in consequence of a rumor that great numbers of the silk worms in the silk department of France had been attacked by a disease which was proving very fatal. A great rise in silk goods has indeed taken place, and it is true that agents have been sent to China and the West Indies to get a new supply of worms. Ladies are beginning to tremble for their frouses, but it must be confessed that the constant arrivals of rich and elegant dress goods give little reason to fear the supply is exhausted. Ubdeli, Pierson, and Lake are constantly receiving new varieties in rich flounced robes, one of which was so exquisite that I cannot forbear describing it. It is a very fine shade of corn-colored taffetas with flounces of white velvet, upon which is an embroidery of corn colored satin in flowers. The effect is perfectly charming, so soft and yet so bright. A novelty at this establishment is also found in the "Circassian robe" for morning dresses. They are of dark French calico, and obviate a difficulty with all French goods of this description, which is, that the pattern is too large for the waist. The skirts are composed of large stripes alternating with stripes composed of palm leaves, or some small design upon a dark ground. The part intended for the basque and sleeves is flounced only of these small designs, and distinct from this again there is a third intended for trimming. Five dollars each is the retail price for these "robes." There are some very handsome sables in *moire antique*, plaided with the most strikingly contrasting colors and studded with brilliant flowers; but in plain colors, white drab, or the "Maria Louisa" blue, is the most in vogue. In Paris, black *moire antique* has been worn for dinner toilette, with plaid flounces of the gayest colors, but this style is hardly refined enough to become popular with our sensitive belles.

For evening dresses light materials will be worn, especially by young ladies. A new and very light Organdie muslin, flounced and intended to be worn with a blonde *canton* in black and white, is extremely pretty and delicate, and will divide the suffrages with a "zephyr" tissue, entirely new, and so airy and graceful that Titania herself might wear it with pleasure. Lace is also a great favorite as over over graduated skirts of tissue; light blonde flounces are worn looped up at intervals with heath or the blue acacia; the bodice is worn very low and curving in front so as to insert a lace chimelette, which is ornamented with a bouquet of the same flowers that trim the skirt. Black lace flounces are worn on white muslin dresses with distinguished effect, and a black lace head-dress accompanies it, fastened by a diamond star in such a manner as to give a Spanish effect to the figure.

The "Coronation" Cloak is a new and very elegant style, got up in honor of the Empress of Russia. The material is black velvet, beaver cloth, and it is trimmed with a deep and costly imitation of Russian sable; it is in the Spanish circular form, and very large, flowing, and graceful. The same style is in black velvet trimmed with deep guipure lace, *moire antique*, and fine bugle trimming.

## CRINOLINES, HOOPS, AND THE "UNION" SKIRT.

The extent of the manufacture of hooped skirts in this city can hardly be conceived by those who have not watched the progress of this branch of business. One firm at Douglass & Sherwood, turn out 3,000 skirts a day, beside the common cactus and quilted skirts woven by loom. They employ 300 young ladies, who earn from \$6 to \$9 a week, and occupy a three-story building, 200 feet deep by 30 wide. Specimens of the richest hair cloth or crinoline, fluted and flounced in every variety of style, are to be seen there, down to the common cored cactus at \$7 a dozen. Hoops are as extensive as ever, and great pains are taken to obviate the difficulties complained of by ladies. The last novelty is called the "Union" skirt. It is made of dark cotton, with the lower part quilted in large diamonds, and finished round the bottom with jute cord. Above the quilting is a whalebone hoop, and about a quarter of a yard above that, another. The back part is then finished by three small loops, which form shirrs, and extend over the hips, where they are joined by tapes a quarter of a yard in length, which are suspended from the binding and attached to the hoop in front of the skirt. It is very artistically made, and exactly adapted to the season.

**THE VAGABOND—A Story of a Life.**—For the past two years a very tall and singular looking woman, fantastically clad, has alternated her existence between the streets of the city and the vagrant quarters. She is deaf and dumb, and, though otherwise free from crime, she has nevertheless imbibed so strong a passion for drink that she is frequently found by the watchmen a companion of hogs in the kennel. The name of this wretched outcast is Mary Belknap, although she is more generally known by the sobriquet of the "Lady of Lyons." There is much in this poor creature's history to realize the old adage of "Truth is stranger than fiction," as will be seen by the following brief outline:

Fourteen years ago she was an accomplished dancer, and as such was engaged by the Ravel troupe, with whom she continued for several years. At that time her graceful figure and queenlike appearance attracted the admiration of many of the opposite sex, one of whom, an accomplished libertine, succeeded in inveigling her from the path of virtue, when, leaving the troupe with which she had been so long engaged, she became his mistress. The rest which follows is the old story; her seducer, with the proverbial fickleness of a libertine, soon deserted her, and a severe fit of sickness and a malignant fever, not only made terrible ravages upon her personal appearance, but even destroyed those blessed attributes of benign nature, speech and hearing. Since then she has been a wanderer and a vagabond, until about two years since she found her way to this city, and became associated with some of her sex, her passion for strong drink increasing as she fell lower into the depths of degradation. Reason at length tottered upon its throne, and she became a hopeless imbecile, when her vicious companions, finding her a burden, turned her forth, and a severe fit of sickness and a malignant fever, not only made terrible ravages upon her personal appearance, but even destroyed those blessed attributes of benign nature, speech and hearing. Since then she has been a wanderer and a vagabond, until about two years since she found her way to this city, and became associated with some of her sex, her passion for strong drink increasing as she fell lower into the depths of degradation. Reason at length tottered upon its throne, and she became a hopeless imbecile, when her vicious companions, finding her a burden, turned her forth, and a severe fit of sickness and a malignant fever, not only made terrible ravages upon her personal appearance, but even destroyed those blessed attributes of benign nature, speech and hearing.
